

Paarl Rotary recognises service to others less fortunate - Paarl Post May 2008

IN awarding a Rotary Presidential award of merit at the weekend, Paarl Rotary President Trevor Harris applauded M'Lani Basson for her "excellent service to mankind". M'Lani runs Amado, an animal assisted therapy centre for children with special needs in Paarl. "I have seldom met someone who can both inspire and encourage me with hope and the positive feeling that there is a future for my children," Harris said before bestowing the honour.

"In my travels through life , I have been privileged to meet kings and presidents, captains of industry and leaders from all walks of life. Yet I am humbled by the work done and the enthusiasm of the recipient of the award. "The selflessness exhibited to others, and the care shown to people less fortunate. "I would like this recognition to spur you all to take your given and learnt talents to a new height."
